Question Cleared Up

Advertiser Readers Can No Longer Doubt The Evidence.

Again and again we have read of strangers in distant towns who have been cured by this or that medicine. But Norway's pertinent question has always been "Has anyone here in Norway been cured?" The word of a stranger living a hundred miles away may be true, but it cannot have the same weight with us as the word of our own citizens, whom we know and respect, and whose evidence we can so easily prove.

M. M. Kilgore, shoeshop, Danforth St., Norway, Me., says: "I know of no other remedy like Doan's Kidney Pills. I had backache and rheumatic pain for more than a year. My kidneys were the cause of the trouble. Sometimes I was so lame I could hardly stand. I did not rest much and was feeling miserable when I was advised to try Doan's Kidney Pills. I got them at Stone's Drug Store and a few boxes cured me. I never fail to recommend this remedy." 18-19

For sale by all dealers. Price 50 cts. Foster-Milburn Co., Buffalo, New York sole agents for the United States.

Remember the name—Doan's—and no other.

Only One Way to END CATARRH

Reach the raw, tender, inflamed membrane infested with Catarrh germs, and destroy them.

You can't reach the nooks and crevices with liquid preparations—there is only one way—breathe the germ destroying air of Booth's HYOMEI (pronounced High-o-me) directly over the inflamed and germ infested membrane.

HYOMEI contains no opium, cocaine or other harmful drugs. It is a balsamic air made of Australian eucalyptus, thymol, and some Listerine antiseptics. It is guaranteed to end the misery of Catarrh and Croup or money back. It's fine for Colds and Coughs.

Ask Noyes Drug Store about Booth's HYOMEI outfit to-day—it is only \$2.50 and they guarantee it. Extra bottles, if later needed, 50 cents. Just breathe it—no stomach dosing.

ROXBURY.

Thomas' Store Burned. Saturday, at about 8.15 p. m. general store owned by J. H. Thomas was burned to the ground. The entire stock of goods and a \$50 in cash were burned.

Mr. Thomas was seated in his office in the store when, on looking out of the window he saw the all of the building on fire. He caused the mill whistle to be sounded and in a few moments about twenty men in town came to the spot.

By that time the building was in flames as a high wind was blowing and the fire brigade put all their exertion into saving the shed and stable on either side of the store, which was done.

Besides the contents of the safe, Mr. Thomas saved his store books, and the selectmen's books.

The loss is estimated at \$4000, insurance \$1500. How the fire caught is not known, but a defective chimney is thought to have been the cause.

Fixing roads seems to be the order of the day around here. Road Commissioner L. E. Gould with a crew of men are clearing the mud hole in front of St. Stanley's and filled it in with rocks and we all hope when the next spring mud-time comes it won't find such an ideal place to rest in.

A very pitiful sight was witnessed from your correspondent's home Saturday afternoon. An aged but highly respected citizen, George Stanley, in attempting to walk from his daughter's, Mrs. Ira Garland's home in Cornish to his boarding house at South Hiram, fell exhausted by the wayside, and but for the kindness of Mr. Crabtree who assisted him to his boarding house, Mrs. Merrifield's, he doubtless would have laid there a long time.

Parents, Read this Letter!

I have a letter from a prominent Maine clergyman in regard to a sickness of one of his children from which I quote as follows: "Our two-year-old baby was very sick at two different times and we came near losing her. We had the best doctors, but they did not know what the trouble was. In the first sickness she had high fever for several days, and the doctor said it acted like scarlet fever, but as there were no other cases he did not think it could be. After wards she broke out in a rash all over her body. The last sickness was similar and the doctor was puzzled. She was very nervous and we feared we would lose her. You Dr. True's Elixir was recommended, and after two days' use she passed several worms from two to three inches in length, and is now well and strong and sleeps at nights without fretting, tossing and starting in a fright as she did formerly."

I will be glad to furnish this clergyman's name and address to anyone who cares to write to me.

N.B.—True's Elixir is the best known remedy for all stomach and bowel troubles. Purely vegetable, pleasant to take and entirely harmless. Expels stomach worms and pinworms. All dealers, 35c; 50c; \$1.00. Yours for better health.

When You Want a Thing Done Right, Do It Yourself

The man who wants his tobacco cut up for him months before he smokes it, just to save a minute's time, cannot blame the manufacturer because the tobacco gets dried up, burns fast in his pipe and scorches his tongue.

There's only one way to get fresh tobacco—cut it up yourself as you use it, from the Sickle plug. Then you get all the original flavor and moisture that have been pressed into the plug and kept there by the natural leaf wrapper—and you are rewarded by a cool, sweet, satisfying smoke.

Every day more smokers are coming back to the good old Sickle plug and satisfaction. Buy a plug of Sickle at your dealer's—and note how much more tobacco you get, when there's no package to pay for.

THE FRESH AIR CURE

Is Sound and Logical.

Both by day and by night it is ne-
cessary to have enough oxygen. From
fresh air to keep the blood pure and in
best condition to repair waste and to
maintain life. If confined by day,
sleep in open air at night, well pro-
tected of course by suitable clothing.

If the liver or bowels become slug-
gish take a proper dose of "L. F." At-
wood's Medicine occasionally to pre-
vent congestion. It is a safe old fam-
ily remedy.

"I have used 'L. F.' Atwood's
Medicine with most excellent results
and do most heartily recommend them.
I feel sure that the 'L. F.' Atwood's
Medicine is very beneficial in cases of
Dyspepsia, Headache, and vomiting."

Be a Charming Woman

You never saw a beautiful woman who
didn't have beautiful hair. The charms
of a beautiful woman lie in her hair.
Many women do not realize the attrac-
tions they possess because they do not
give proper attention to the hair.

The women of the "400" are famed for
their beauty, not because their facial
features are superior to those of other
women, but because they know how to
keep young by supplying vigor, lustre,
and strength to the hair.

Up to a few years ago PARISIAN
Sage could hardly be obtained in Amer-
ica. But now this delightful hair re-
storant can be had in every town in Amer-
ica. Noyes Drug Store sells it in Nor-
way for 50 cents a bottle and guaran-
tees it to grow beautiful luxuriant hair;
to stop falling hair, eradicate dandruff.

Reading of the constitution.....Mrs. Mary Stevens

Improvement of farm weather of the present.....Improvement of farm weather of the present

Question: To what extent would it be best for farmers of moderate means to purchase improved farm machinery?.....Ora Field

Answer.....Ora Field

A. J. Abbott circulated the petition and secured 40 names of persons who wished to have a Grange organized here and the letter mentioned above was the State Sec'y of the Grange, Mr. J. W. Wyman, who would arrive to perform the official business of organization.

It happened on that particular day of April, 1888, that the very worst snow storm of the winter came (quite unlike any of the April weather of the present year) so that only a very few of the 40 signers could come to the meeting. Mr. Abbott was at that time at work in the Creamery and was unable to go to his home at North Paris and none of his customers could bring him any milk that day.

But through the bravery of Mr. Abbott who signed a document making himself responsible for the membership dues of all the petitioners, the grangers organized, but two paid their dues later, thus relieving Mr. Abbott of his responsibility.

The meetings were first held in Centennial hall, then for a long time they were held in a small building near Trap Pond, again in Centennial hall and then they bought the Judkins hall which stood on the present site. Now they have 162 members and the only cement block Grange hall in the State, which is recognized throughout the State even to Massachusetts as being one of the best in the organization.

The Grange belongs to the sturdy race of farmers and they will accomplish a great many things when once determined to do so.

The roll call was responded to by 42 members and made interesting remarks and some very comical incidents. The question was opened by A. J. Abbott and a lively discussion followed, only they were all agreed that no one could afford to do without all the improved machines that one could use whether out of doors or in the last received applause from the women.

John F. Wood.

John Farnes Wood, whose decease was mentioned last week, was born Oct. 2, 1838, in Concord, Mass., and died April 20, 1913, at his home at Snow's Falls. He was the youngest of the seven children of James Wood and Rizpah Farmer, and was the eighth descendant from William Wood who came from Matlock, Eng., and settled in Concord, Mass., in 1688.

In his early days Mr. Wood was the foreign representative of Walter A. Wood, and introduced and sold mowing machines in England, France, Ireland, Egypt and Algiers. On his return in 1868 he organized the Union Stone Co., of Boston.

In 1880 he succeeded in creating interest resulting in the erection of a mammoth exhibition building in Boston, covering one and a half acres of ground and of floor space. About the same time he became interested in the late F. W. Locke in the Exeter Wood Pulp Co., and made his first acquaintance with Snow's Falls.

Mr. Wood has had a varied and extensive business career. Some of his best and most prosperous and others somewhat disappointing.

He was married Feb. 22, 1866, to Ella Louise Skinner, daughter of the well known family by that name in Charles town, Mass. Mrs. Wood died Nov. 18, 1912, leaving one son, Fred J. Wood of Brookline, Mass.

Later he married Alice Cora Sparks of Provincetown; she, with his son, Fred, survived to mourn the loss of a devoted husband and father. He was of a loving, generous disposition and a good neighbor. He has been retired from business for the past six years or so, and failing health for a year past with a lingering disease that was painful and hard to bear, and continued to his bed for the last three months, patient and cheerful through it all.

He was a member of the Corinthian Lodge, F. & A. M., of Concord, Mass., since 1863.

The funeral was held here at the Universalist church, Wednesday afternoon, Rev. D. A. Ball, speaking words of comfort. The Ladies' Quartette rendered a chanting response and Dana L. Grover, accompanied by Mrs. Grover, sweetly sang a solo, "Come Unto Me." The exercises closed with the F. & A. M. ritual service. Interment was in West Paris cemetery.

WHY YOU SHOULD USE CHILTON PAINT

It is a Pure Linseed Oil Paint. It contains no Benzine or Naphtha in any form. Its record for durability is not surpassed. It has been used here in Norway for 20 years. It covers more, covers better and wears longer than many other advertised brands.

It really costs less than paints sold for less money, for it must be thinned with Linseed Oil or Turpentine before using.

Try it this year and you will always demand it.

Mrs. C. E. Cobb is in Boston.
Mrs. Etta Webb is cooking at Denmark Inn.
The Christian Endeavor meeting was with Mrs. A. P. Cobb, Tuesday evening. There was the usual Saturday evening dance at I. O. O. F. hall, April 20th. Uncle Daniel Johnson of Brownfield, formerly of Denmark, was a guest at Geo. Allen's over Sunday.

Lots of our people are having throat and lung trouble, caused by the extremely cold damp weather of the past month, and a number of the scholars are having the measles, and now the German measles have struck here, and we are wondering what next.

Funeral services were held here, Sunday, the 13th, conducted by Rev. Mr. Hoyt of Hiram, and he was laid to rest by the side of his wife, in the Pingree cemetery.

The voters at a postponed town meeting on Monday, Apr. 14th were not able to secure a two-thirds vote in the proposed electric road through Fryeburg and adjoining towns. B. Walker McKean read letters from residents of other towns having electric railroads testifying to the gain to those towns by the increased valuation of the real estate in these towns.

In some sections of Fryeburg the residents were greatly in favor of the construction of the roads, in others they were equally averse to it. At the March meeting, 1914, conditions may be more favorable for the taxpayers and the railroad may be realized.

The meeting of the Stirling Literary Club on Wednesday, April 16th at the home of the president, Abbie Andrews, was well attended and the varied program proved interesting and timely. Size of new bill -- 6 x 2.5 inches

The New and Smaller Paper Currency

It is expected that within a month or two the people of the United States will witness a great revolution in the size and appearance of their paper money. Each of two billion notes of that kind now in circulation will be supplemented by uniform pieces of currency about a quarter size smaller than now used.

The change in size is not the only one. Any note with Washington's portrait on it will be one dollar, Jefferson's, two dollars, Lincoln's, five dollars, Grover Cleveland's, ten dollars, Alexander Hamilton's, twenty dollars, and so on. This plan will render the raising of bills by crooks practically impossible, and we will have the safest and simplest system of National Currency in the world.

However, the new money will be just as elusive—just as hard to get and keep—as the old currency, and your need for the services of a good bank in caring for it, whether for deposit or investment, will be just as great. This Strong National Bank stands ready to serve you in this connection.

THE NORWAY NATIONAL BANK OF Norway, Maine.

The man who has a bank account feels self-respect and confidence. There is a mysterious thing called "Credit," which is based on faith. You can establish this credit and this faith, that people have in you, by having MONEY IN THE BANK. The banker, who is the friend and advisor of every business man in his community, grows to believe in you when he sees you putting money away for your future. If you have not got a bank account start one NOW.

NORTH PARIS.

North Paris Park.

The Village Improvement Society of North Paris, under the advice of the School Committee began work on the North Paris play ground and turned around the out buildings at the school and every one who was not one of the workers were aroused many times as the big tons of rock were blasted in order to remove the wall on the play ground on to the side which the society of V. I. S. had voted to do. Those who had children that needed a playground worked hard and the mill men worked on the ground instead of working in the mill.

The Ladies gave the men a dinner and supper which was a credit to the Society. Every one felt the spirit which prompted the men and all worked with a vim and accomplished work not usually done in so short a time in the history of North Paris.

Stone's Water Glass

For Preserving Eggs

25 Cents in Quart Bottles

DIRECTIONS—Use only perfectly fresh eggs. Stale eggs will not keep by any method of preservation. Clean out the vessel in which the eggs are to be packed (preferably a stone jar) by scalding with boiling water. Prepare the solution, using water that has first been boiled and then cooled to ordinary temperature. To each 10 quarts of water add 1 quart of water glass. Pack the eggs into the jar and pour the liquid over them, covering the eggs completely. Do not wash the eggs before packing them, as this may injure their keeping qualities by removing a natural protective coating on the outside of the shells. Keep the eggs packed in this manner in a cool, dark place, such as a dry cool cellar.
